- **A method or technique that has consistently shown results superior to those achieved with other means and that is used as a benchmark.**

- **Benchmarking is an ongoing systematic & can be set.**
  - **Are we performing better than we have ever performed?**
  - **Are there any other organizations that are performing well and from whom we can learn?**
  - **Are there any practices that will improve our performance?**

The institution has established a close association with the neighbouring colleges and keeps sharing the best practices with them.

The best practices should

- be dynamic & revisited periodically;

- recognize diversity & cultural and historical contexts;

- not lead to dominance of one specific view or approach;

- promote quality of performance.
